## Required transport movement:

Move SY Artemis TP52 from Puerto Portals to their new shed in Binissalem.  
Shed is a 500m<sup>2</sup> warehouse 29m long x 15m wide x 10m high all organised by Planet Space Logistics.

Goods to move:

2x 40ft High Cube Containers

1x Keel & Bulb 3.5 tons

1x mast 25 mtrs long

1 x TP52 Racing yacht hull only

## Task 1

### Load up at 0630 in Puerto Portals: Rig, Containers and Keel Bulb

Everything loads early so as to avoid the traffic in Puerto Portals although we have a problem with one stray car: Problem resolved and we continue to move the gear up to Binissalem:

## **Task 2**

**Offload containers and gear in Binissalem: 2 containers on top of each other inside a warehouse. No problem!**

It is easy when you have the right tools

Race Containers

Happy Nipper !

Rig offloaded all is good and all is going to plan!

## **Task 3**

**Get the boat out of portals through the shed door and offloaded**

It is a tight fit, thats why we use those good old fashioned measuring tapes, it fits through no problem!
